This article analyzes the current regulatory legal acts regulating relations in the field of state control (supervision) over ensuring safety and anti-terrorism protection of the fuel and energy facilities. The article examines the rules governing the procedure for field and documentary, scheduled and unscheduled inspections by the body authorized to exercise state control (supervision) over ensuring safety of the fuel and energy facilities. The author analyzes the judicial practice in cases of administrative offences related to violation of the requirements of the laws on safety and anti-terrorism protection of the fuel and energy facilities. Based on the analysis of the current regulatory legal acts and judicial practice, it was proposed to amend certain regulatory legal acts in the field of safety and anti-terrorism protection of the fuel and energy complex facilities.

Keywords: energy law, energy security, legal regulation of anti-terrorism protection of the fuel and energy facilities, subjects of the fuel and energy complex, state control (supervision) in the energy sector.
